| Responsible instructor  | Marina Platonova  |
| Academic staff  | Antra Roskoša<br>Zane Seņko<br>Tatjana Šmirnova<br>Tatjana Hramova  |
| Volume of the course: parts and credits points                        | 1 part, 2.0 Credit Points, 3.0 ECTS credits   |
| Language of instruction   | LV, EN  |
| Annotation  | The study course aims at developing soft skills of the students to promote advanced interpersonal communication, abilities to work well in teams, manage time and get successfully and efficiently engaged in networking. The acquired skills are needed to attain higher levels of cognitive flexibility, enhance critical thinking skills, get involved in multiple interrelated and reciprocally amplifying creative activities, contributing to communicative acts leading to cross-fertilization of ideas and development of willingness to learn and act under pressure. Students master practical techniques to communicate and reinforce their message at various levels and in various contextual situations, allowing them to focus on their target audience needs and expectations. Students learn how to assess their performance critically, comprehend communicative and networking situations and context, learn to address the issues in different communicative modes. Students draw up reports, theses, summaries, organize and maintain debates and discussions on various popular scientific, as well as topical professional themes and subjects, etc. |
| Goals and objectives of the course in terms of competences and skills | The goal of the study course is to develop students' public speaking skills for seminar and conference presentations considering the criteria for successful presentations.<br>Objectives of the study course:<br>1) to develop a set of students' soft skills;<br>2) to develop students' advanced interpersonal communication skills;<br>3) to improve students' competence to critically evaluate their own and other people performance;<br>4) to develop students' networking skills;<br>5) to acquaint students with speech composition techniques, speech structure, psychological and persuasive aspects of speech;<br>6) to develop students' ability to pass information to other people efficiently via different modes,<br>7) to help students attain higher level of cognitive flexibility;<br>8) to teach to format presentations in different ways: static visual (for overhead projector and PowerPoint), action visual (Video), mute (gesture, no sound),<br>9) to develop students' ability to persuade, evaluate people, their performance and the situation;<br>10) to develop students' stress and conflict management skills.                         |
| Structure and tasks of independent studies                            | A report on a topical research issue in the selected field, portfolio of written tasks.   |
